

## USER GUIDE

# How to Use the Studio Booking Website

Digital Media & Creative Innovation Hub

Everything you need to reserve a studio room, book a session with a sound or media engineer, know what to expect on the day, and - if you are an engineer - apply to work out of the Hub.

## SECTION 1

# Welcome & Quick Facts

The Studio Booking website lets you reserve creative studio rooms at the BIPOC Foundation Digital Media & Creative Innovation Hub in Lethbridge. You can browse rooms, pick a date and time, optionally add a studio engineer, and pay your deposit online. You do not need an account to get started - a name and phone number are enough on supported screens.

## At a glance

|                       |                                                          |
|-----------------------|----------------------------------------------------------|
| <b>Open days</b>      | Wednesday, Thursday, Friday & Saturday only              |
| <b>Hours</b>          | 12:00 PM - 8:00 PM each operating day                    |
| <b>Session length</b> | 1-hour blocks · minimum 1 hour · maximum 5 hours per day |
| <b>Deposit</b>        | \$20 due at checkout (space-only or with an engineer)    |
| <b>Address</b>        | 2525 36 St N, Lethbridge, AB T1H 5L1                     |

### Account or guest?

You can complete a booking as a guest using just your name and phone number. Creating an account lets you review past bookings, keep your details on file, and - for engineers - build a full public profile.

## SECTION 2

# How to Book a Studio Room

From the home page or the Rooms page, start a booking and follow the four-step flow shown along the top of the screen: Date -> Time -> Details -> Checkout.

1

### Choose a room

Open the Rooms page and pick the space that fits your project. Each room page shows the best use case, capacity, photos, and whether engineer support is available.

2

### Pick a date

Use the calendar to choose an operating day. Only Wednesday-Saturday show open slots; closed days are not selectable.

3

### Pick a time

Select your start time and length in 1-hour blocks - up to 5 hours per day. Taken slots are greyed out so you only see what is actually open.

4

**Enter your details**

Choose your user category (this sets your hourly rate), then continue as a guest with your name and phone number, or sign in. Add any notes for the team.

5

**Review the price breakdown**

Confirm the room, date, time, any staff support, and the price - including GST and your deposit - before you commit.

6

**Check out**

Pay the \$20 deposit securely by card, Apple Pay, or Google Pay. You will get a booking record and can download a PDF receipt.

**Why a phone number?**

It gives the team a reliable way to confirm details, reach you if a timing issue comes up, and help with your booking faster. Guest bookings still create a full booking record you can review.

**SECTION 3****What to Expect on the Day****Before you arrive**

- **Arrive** 10 to 15 minutes early so you have time to check in, unload gear, and get settled before your session starts.
- **Bring** your files, drives, reference tracks, and any specialty gear you need. Match the space to your project using the room page.
- **Guests** - you can bring additional people as long as you stay within the room capacity shown on the room page.

**Timing & payment**

- Late arrival still counts against your booked time, and early departure is charged for the full booked session.
- Full payment is required before the session begins; the deposit you paid online is applied toward your total.
- Projects with unusual setup, staffing, or access needs may require approval before they are confirmed.

**Equipment**

- Check the room page for the available setup, then bring your own files, drives, references, and specialty gear.
- Equipment rentals may require a credit-card authorization and a signed usage agreement before use.

**SECTION 4****Booking a Room With Staff Support**

Add a studio engineer when you want help with setup, room guidance, or a more hands-on session - for podcasting, sound, photography, video, branding, or other production support, subject to availability. There are two ways to book with staff:

## Option A - Add staff while booking a room

If the room offers engineer support, the booking flow shows a staff option on the Details step. Add it there and the updated price (including the engineer) appears before you confirm.

## Option B - Start from the Staff page

Open the Staff page, browse the team, and select an engineer to book them directly. This uses a four-step flow:

- 1 Staff**  
Choose the engineer from the team catalog. You can search by name, skill, or role.
- 2 Time**  
Pick a date and an available time block from that engineer's calendar.
- 3 Details**  
Confirm the room, your user category, and contact details - guest or signed-in.
- 4 Checkout**  
Review the combined price and pay your \$20 deposit to confirm.

### Good to know

A booking with an engineer uses the same \$20 deposit as a space-only booking. The engineer's support is reflected in the session price you review before checkout.

## SECTION 5

# Rates, Deposits & Cancellation

## Public hourly pricing

| User category                     | Per room   | Full space |
|-----------------------------------|------------|------------|
| Artist Member                     | \$50 / hr  | \$100 / hr |
| Venture Member (after free hours) | \$50 / hr  | \$100 / hr |
| BIPOC Community Member            | \$75 / hr  | \$150 / hr |
| General Public                    | \$100 / hr | \$200 / hr |
| Organizational Member             | Contact us | Contact us |

Your user category sets your hourly rate. Artist Members get the \$50/hr room rate and can receive the approved "book 4 hours, get the 5th free" incentive. Contact the team to apply for or confirm your category.

## Deposits

- **Space-only booking** - \$20 due at checkout.
- **Booking with an engineer** - \$20 due at checkout.

- **Equipment rental** - credit-card authorization for full replacement value may be required.

### Cancellation policy

- Deposits are non-refundable after checkout.
- Cancellations do not return the deposit.
- No-show: the deposit is not refunded.
- Late arrival or early departure: the full booked time is still charged.

## SECTION 6

# Apply to Be a Studio Engineer

Are you an audio, video, or production engineer who wants to work out of the Hub? You can apply right from the website. Open the Staff page and scroll to "Apply to be a studio engineer," then fill out the short form.

### What the form asks - and what to put

#### Name **REQUIRED**

Your full name, e.g. "Jane Doe."

#### Email **REQUIRED**

An address you check - the team replies here.

#### Phone **REQUIRED**

A reliable number, e.g. 403-555-0100.

#### Skillset **REQUIRED**

What you do: recording, mixing, mastering, live sound, video editing, photography, podcasting, branding, and so on. Be specific.

#### Equipment **OPTIONAL**

Any gear you would bring or work with. Optional, but it helps the team understand what you can offer.

#### Why should you be considered? **REQUIRED**

Your experience and what you would bring to the studio - past projects, credits, and the kind of sessions you want to run.

#### What happens after you submit

Your application is sent to the team and an admin reviews it. If it is a fit, they will be in touch. To work as a studio engineer you will also create an account and build your full profile - headshots, portfolio, skills, and gear - which an admin reviews before granting studio-engineer access. Start that at Account -> Create your engineer profile.

## SECTION 7

# Need Help?

Still have questions before you book? The FAQ page answers the most common ones about rooms, equipment, booking rules, and staff support. You can also reach the team directly:
